My working day

On weekdays the alarm-clock wakes me up at 6.30 and my working day begins. I'm not an early riser, that's why it's very difficult for me to get out of bed, especially in winter. I switch on my radio and do my morning exercises. Then I go to the bathroom, take a warm shower, clean my teeth and shave. After that I go to my bedroom to get dressed.

Usually my wife makes breakfast for me. But when she is away on business or just doesn't have to get up early, I make breakfast myself. While having breakfast, I listen to the latest news on the radio.

I leave home at 7.30 and go to the nearest underground station. After earning a degree in logistics, I took a position in a retail distribution center as an assistant manager. It takes me an hour and a half to get to work. But I don't want to waste my time on the train. I've got a small MP3 player and I listen to different texts and dialogues in English. Sometimes I read a book and retell it silently. If I come across an interesting expression I try to memorize it.

I usually arrive at work at ten minutes to nine though my working day begins at 9 sharp. There are always some emails to translate from English into Russian. Sometimes my boss wants me to discuss working issues with our business partners abroad. There are also a lot of phone calls which I have to answer.

At 1 o'clock in the afternoon we have lunch. We usually have lunch in a small cafe just round the corner. At 2 o'clock we come back to work. And we work hard till 5 o'clock. During the working day we also have several short coffee breaks. But sometimes we have no time for them.

I come home at about 7 o'clock in the evening. My family members are usually at home, waiting for me. We have dinner together. Then we sit in the living room, drink tea, watch TV or just talk. Occasionally I have to stay at work till 6 or even 7 o'clock in the evening. When we have a lot of things to do we go to work on Saturdays. So by the end of the week I get very tired. All I can do on Sundays is to sleep till eleven o'clock, watch television, listen to music and read something in English.

And still I always look forward to my next working day because I like my job. I think I get a lot of useful experience.

Hobby is a useful experience for the future profession

From my point of view, hobby plays an important role in a person`s life. Now I would like to set some examples to prove this statement.

Firstly, hobby helps get out of depression and raise our spirits. For instance, you have been frustrated. But if you have a favourite occupation, while passing the time you are getting involved in the process and gradually forgetting about the previous failure. As it is known, this is an excellent way of entertainment after an unsuccessful experience, as your attention is fully concentrated on the thing you are doing.

Secondly, a hobby can also help choose a career path for the future. For example, when doing sport you understand that you can not live without it and this is your natural rate. Such people usually become professional sportsmen, trainers.

Apart from that, it refers to other spheres of activity. To conclude, hobby is not only a way of calming down and relaxing, but also it can be a useful experiment for your future job.

c) Hobby is not only a way of calming down and relaxing, but also it can be a useful experiment for your future job.	c) Хобби также может помочь с выбором карьеры, жизненного пути.
d) Hobby plays an important role in a person`s life	d) Во время регулярных занятий спортом вы понимаете, что это ваш естественный образ жизни.
e) Hobby helps get out of depression and raise our spirits.	e) Чаще всего такие люди становятся профессиональными спортсменами, тренерами.
d) Hobby can also help choose a career path for the future.	f) Хобби может быть не только способом успокоения и расслабления, но также и полезным опытом для будущей профессии.

My Hobby»

My name is Katherine. I'm 17 years old and I'm a student. I have several hobbies which make my day diverse and interesting.

Almost every day after the lessons I go to the gym. It's one of my favourite pastimes. Moreover, I like swimming and skating. There is a sports center in my town where I can do both of these sports. It contains a swimming-pool and a skating-rink. I think sport is a great opportunity to stay healthy and in good mood. I'm lucky because my two best friends also share my hobbies.

Apart from doing sport, I like singing and dancing. I sing at home and at a local karaoke club sometimes. As for dancing, I go to the local youth club with my friends and we dance there. My favourite types of music are disco, pop and rock. I can also play the guitar a little bit. So, when we have guests over, they often ask me to play something. Apart from music and sport, I enjoy beadwork. I like weaving different objects out of beads. I have already made some trees, flowers, small animals and toys as a gift for relatives or friends. They all loved my works of art.

I rarely have spare time, but when I do I play computer games or read a book. These activities can also be regarded as my hobbies. Another interest that I have is foreign languages and travels. My parents sometimes let me travel with them to other countries and I like practicing my English there. I study English and Spanish at school. I like both languages, however they are absolutely different. English is more popular among the tourists, but Spanish is a more melodic language. Last year, me and my parents were in Turkey and local people could speak both these languages, which was a bit surprising for me. To sum up, I'd like to say that it's important to have some hobbies. Hobby

Hobby is what a person likes to do in his spare time. Hobbies differ like tastes. If you have chosen a hobby according to your character and taste you are lucky because your life becomes more interesting. The most popular hobby is doing things. It includes a wide variety of activities from gardening to traveling, from chess to volleyball. Both grown-ups and children are fond of playing different computer games. This hobby is becoming more and more popular. Making things include drawing, painting, handicrafts. Many people collect something — coins, stamps, compact discs, toys, books. Some collections have some value. Rich people often collect paintings, rare things and other art objects. Often such private collections are given to museums, libraries.

As for me, I like to listen to music. 3 months ago my parents bought me a compact disc player and I decided to collect compact discs. I like different music, it should be good. Shopping

I go shopping several times per week. Nowadays there are so many types of shops — the shopping center, the hypermarket, the supermarket, the bakery, butchery and grocery.

I adore shopping centers. I usually do the shopping with my mother or with my friends. We go to the shopping centers where we can spend hours in different shops. I can buy any type of clothes there: from underwear to shoes and coat.

The supermarkets and hypermarkets are very convenient as you can buy whatever you need at once. There is no more need to go to three different shops to buy bread, meat and vegetables. It's all here.

But still there are those who prefer buying some goods at the specialized places. For example, they buy fresh bread at the bakery across the street, and then go to the butcher's to buy some fresh meat, and then spend 20 minutes to get to the grocery to buy fresh fruits and vegetables.

Modern technologies allow doing the shopping without need not only to get out of the house, but even get out of bed. It concerns not only the clothing, but also the food. The delivery service is a part of almost all modern shops and that is extremely convenient. You can spend half an hour on choosing and ordering the products and then do some other things and then just receive all that you need. Isn't that convenient?

Essay on Shopping

It is difficult to imagine our life without shopping. On one hand, it's one of quite important household tasks. Moreover, shopping is the way to get necessary food and clothes. So, if you don't do it you can't have all things which make your life so comfortable.

On the other hand, it's believed that for the vast majority of people going shopping is not just duty or necessity but a real pleasure. As far as I know there is so called shopping therapy that helps people to reduce stress buying different goods or even just going window shopping.

As for me, I don't belong to such group of people. Shopping doesn't make me happy and sometimes it can even become a nightmare. When I can't find things which I need, I can get annoyed and even stressed. Thus, I go shopping only when I don't have any other choices. I usually go to a supermarket to buy some food once or twice a week. There is a huge shopping center near my house, so I can buy everything I need in one place. From time to time when I need something urgently I can look in a local shop nearby. I normally go shopping alone, that's why I

can do it quickly and effectively. I always make a shopping list before going.

Nowadays it's becoming more and more popular to shop online. I'm firmly convinced that it's the most comfortable way. You just surf the Internet and look through the enormous range of goods. Moreover, you can compare prices and find a real bargain. Also, you can have your purchases delivered. It's amazingly easy and saves a lot of time and energy. Thus, if you're not a fan of shopping like me, do it online.

THE HAWKS GO SHOPPING.

The other day my wife took me on a usual shopping round. In fact I hate going to the butcher's, grocer's and other shops of this sort but of course I have to help my wife about the house. First we bought some pork and beef at the butcher's. Then we dropped in at the grocery and greengrocery. My wife wanted to buy sugar, salt, tomatoes and cucumbers. We also called at the baker's where we bought a loaf of brown bread, some buns and biscuits. On our way home we were passing Selfridge's. " Let's drop in here for a while. We need a suit for everyday wear", my wife said, I agreed. Selfridge's is still one of the biggest and most popular stores in London. They sell everything here. All the things for sale are on the counters. The customers walk round and choose what they want. The store has several departments', women's clothes, men's clothes, shoes, toys, sports goods, umbrellas, leather goods, china and glass, food and so on.

When we entered the shop we went straight to the men's department. A salesgirl showed us a number of suits but we didn't like any of them. One of them was a bit loose on me, another was too tight. As to the third our opinions were quite different. I liked the suit. My wife found it too expensive. She wanted a suit as good as that one but less expensive. The salesgirl showed us a

cheaper suit. It was of good quality but I didn't like the style. We were about to leave the counter.

Then they delivered a new selection of goods. They were not only suits but different kinds of clothes: coats, raincoats, jackets and trousers. I tried on two or three suits. The last was all right. It was just my size and fitted me perfectly. We both liked the suit and the price was not high. "We'll take it, wrap it up, please!" I said to the salesgirl.

Shops and Shopping Areas in Britain and in the USA

The first place you go shopping in London could be one of the large stores. This is the kind of shop that sells all kinds of things such as furniture, food, toys, etc. Two famous London department stores are Selfridge's and Harrods's.

Covent Garden is another area of shops and restaurants built in and around the old fruit and vegetable market made famous in B. Shaw's Pygmalion and the musical My Fair Lady. Covent Garden is also used for the Royal Opera House in the same area.

Department stores, supermarkets, chemists and other kinds of shops are often called chain stores, which means they are part of a group of similar stores belonging to one company. Marks and Spencer is an example of a famous chain store. You can buy quality underwear and

sweaters there. Other well-known chains sell shoes, clothing, household goods, etc. and many British High Streets have shops in national chains.

At some time you'll probably visit a supermarket too. As you might expect, you'll find not only food in supermarkets but also, for example, things for the house and alcoholic drinks. You'll also quite often find a shampoo, soap and common medicines. If you want something from the last group, however, it may sometimes be a better idea to visit a chemist's, especially if you are looking for medicine.

Shopping, however, is an art of its own and you have to learn slowly where to buy various things. In Britain as well as in America you can find different things at places you don't expect to. So if you are hungry, you can go to the chemist's (a drugstore in the USA). In large drugstores you may be able to get not only drugs, but stationary articles, candies, toys, braces, furniture. Every drugstore has a food counter with high stools in front of it and there they serve various juices, coffee, ice-cream, sandwiches and other dishes.

If you want cigarettes, go to the grocer's; if you want to have your shoes cleaned, go to the barber's; if you want a radio, go to a man's shop; if you want a suitcase, go to the chemist's. On the other hand, if you want to send telegrams they are handled by private companies. Nor has the post office anything to do with the telephone either, as the telephone service is supplied by the American Telephone and Telegraph Co.

You must be extremely careful concerning the names of certain articles. If you ask for suspenders in a man's shop, you receive a pair of braces; if you ask for a pair of pants, you receive a pair of trousers, and should you ask for a pair of braces, you receive a queer look.

You should also be careful about the prices! The sum may be more than appears on the price tags. This is because there's a sales tax in America on everything except basic foods.

Hobby

Hobby is what a person likes to do in his spare time. Hobbies differ like tastes. If you have chosen a hobby according to your character and taste you are lucky because your life becomes more interesting. The most popular hobby is doing things. It includes a wide variety of activities from gardening to traveling, from chess to volleyball. Both grown-ups and children are fond of playing different computer games. This hobby is becoming more and more popular. Making things include drawing, painting, handicrafts. Many people collect something — coins, stamps, compact discs, toys, books. Some collections have some value. Rich people often collect paintings, rare things and other art objects. Often such private collections are given to museums, libraries.

As for me, I like to listen to music. 3 months ago my parents bought me a compact disc player and I decided to collect compact discs. I like different music, it should be good. I collect discs of my favourite groups and singers. I carefully study the information printed on discbooklets. I try to find everything about my favourite singers. Also I like to watch music programmes on TV. I want to keep up with the news in the world of music.

Of course, I like to spend my spare time with my friends. We talk about all sorts of things (politics, teachers, girls). We discuss films, books, TV programmes. In fine weather we like to be in the open air. We find a nice place somewhere in the forest. We make a fire, bake potatoes and have a lot of fun. When the weather is bad, my friends come to my place. We have a good time together.

My working day

On weekdays the alarm-clock wakes me up at 6.30 and my working day begins. I'm not an early riser, that's why it's very difficult for me to get out of bed, especially in winter. I switch on my radio and do my morning exercises. Then I go to the bathroom, take a warm shower, clean my teeth and shave. After that I go to my bedroom to get dressed.

Usually my wife makes breakfast for me. But when she is away on business or just doesn't have to get up early, I make breakfast myself. While having breakfast, I listen to the latest news on the radio.

I leave home at 7.30 and go to the nearest underground station. After earning a degree in logistics, I took a position in a retail distribution center as an assistant manager. It takes me an hour and a half to get to work. But I don't want to waste my time on the train. I've got a small MP3 player and I listen to different texts and dialogues in English. Sometimes I read a book and retell it silently. If I come across an interesting expression I try to memorize it.

I usually arrive at work at ten minutes to nine though my working day begins at 9 sharp. There are always some emails to translate from English into Russian. Sometimes my boss wants me to discuss working issues with our business partners abroad. There are also a lot of phone calls which I have to answer.

At 1 o'clock in the afternoon we have lunch. We usually have lunch in a small cafe just round the corner. At 2 o'clock we come back to work. And we work hard till 5 o'clock. During the working day we also have several short coffee breaks. But sometimes we have no time for them.

I come home at about 7 o'clock in the evening. My family members are usually at home, waiting for me. We have dinner together. Then we sit in the living room, drink tea, watch TV or just talk. Occasionally I have to stay at work till 6 or even 7 o'clock in the evening. When we have a lot of things to do we go to work on Saturdays. So by the end of the week I get very tired. All I can do on Sundays is to sleep till eleven o'clock, watch television, listen to music and read something in English.

And still I always look forward to my next working day because I like my job. I think I get a lot of useful experience.
